

Town Lands Committee
Minutes
April 6, 2010

Present: Chris Coffin, Ken Oehmig, David Hackett, Melinda Richter, Jane Smith

Also Present: Jim Henderson, David Brooks

Absent: Bob Waddle, John Loyd, Ned Perry

- Devil's Back: Possible trail work Saturday, 8-11 on April 10th
- Giant's Stairs: Is banking at the end of Ocean Street really stable?? Melinda will call road commissioner. Boulders weight has sent it down the bank creating a gully with another builder on top of it and so forth.
- Graveyard Point encroachments: Jim suggests that we get a proposal ready for selectmen to review so we can get a plan going. Is there a parking ordinance on that street? Need to get the entire consent agreement and need to tap Bob Waddle's knowledge. Will meet there next meeting date at six o'clock Tuesday 5/4 then proceed to Centennial Hall for the regular 7:00 meeting. David Hackett told of a road along the shore way back when and that Charlie Bibber had a boat yard there in the early 1900's where boats were hauled out. That Frank Bailey's poetry book has mention of this area.
- Suggestion that before we appoint a Mackerel Cove steward to get rules in place and to get more particulars for boats and trailers and parking... some mention of this in the 1986 town report. Harbor and Waterfront may have particulars on this or maybe David Chipman or Bruce Davis or Chipper Black. Finding the Waldo Root letter with its intent would help; the search for it continues. That metal junk and mental trailers get towed away and that small boats under 21 feet (except dories) and not huge trailers and not huge boats be wintering on town property.
- David Brooks of the Recreation Committee said that the bike racks were delivered yesterday and to be loaded Friday at 3:00. Likely to be anchored with 4' x 6' pressure treated wood embedded in the ground. Giant's Stairs, Mitchell Field, and Mackerel Cove still priority places.
- March minutes approved and Melinda & Jane to stay on as co-chairs with Jane taking notes for Ken to transcribe & distribute.
- Next meeting May 4, 6:00 Graveyard Point & 7:00 Centennial Hall
